a**b**

“If I had 20 days to solve a problem, I would spend 19 days to **define** it.

- **Albert Einstein**

A word cloud featuring various business and innovation-related terms. The words are arranged in a dense, overlapping manner, with some words being significantly larger than others. The color palette consists of shades of orange and red. The largest words include 'Value', 'Design', 'Strategic', 'Technology', 'Growth', and 'Collaboration'. Other prominent words include 'Management', 'Disruptive', 'Innovation', 'Service', 'Knowledge', 'Ideas', 'Change', 'Discovery', 'Engineering', 'Need-based', 'Access', 'Risk', 'Entrepreneurship', 'Opportunity', 'Impact', 'Problem-solving', 'Research', 'Solutions', 'Excellence', and 'Management'.

University Innovation

Universities have commonly
been associated with basic
(or incremental) innovation.

Innovation Outcomes

- Improved value
- Greater efficiency
- Enhanced productivity
- Satisfaction of market and national/public needs
- Greater competitiveness
- Beneficial partnerships
- Better outcomes
- Improved quality of life

Innovation at ASU

ASU Charter

ASU is a **comprehensive public research university**, measured not by whom it excludes, but by **whom it includes** and how they **succeed**; advancing **research and discovery** of public value; and assuming **fundamental responsibility** for the economic, social, cultural, and overall health of the **communities** it serves.

What does Arizona Want

85

The percentage of Arizona voters who:

- Acknowledge the broader value of higher education
- Believe graduating more degree-holders will improve Arizona's economy
- Support a world-class education for all

EdPlus

School for Future of Innovation in Society

Planning now for the kind of futures we want.

What knowledge needs to be produced for human betterment?

Can nanotechnology, synthetic biology, geoengineering and artificial intelligence be developed and governed responsibly? Should they be?

SFIS Faculty

Dave Guston (Yale/MIT)

Founding Director & Professor

Andrew Maynard (University of Cambridge)

Professor & Director, Risk Innovation Lab

Lee Gutkind (University of Pittsburgh)

Professor, Hugh Downs School of Communication & Writer in Residence, SFIS

“Godfather of creative nonfiction”

Darlene Cavalier (Temple and University of Pennsylvania)

Professor of Practice, CSPO & Founder, Science Cheerleader

Center for Science and the Imagination (CSI)

CSI convenes writers, artists and other creative thinkers to collaborate with scientists, artists, engineers and technologists to reignite humanity's grand ambitions for innovation.

Partners include Intel, NASA, the World Bank, the U.S. National Science Foundation.

Renowned futurist Brian David Johnson recently left Intel to join the CSI as its Futurist in Residence and SFIS as a Professor of Practice.

The Tower Project

School of Human Evolution and Social Change

In 2006, SHESC merged traditional archeology with programs in global health, mathematics, and the social sciences.

10 years later, it is a leader in experiential learning, related field technologies and global inquiry.

In 2015, SHESC anthropologist Sarah Mathew became an inaugural Carnegie Fellowship winner, receiving \$200,000 to expand her research on culture and war.

Sarah Mathew, Assistant Professor

School of Earth and Space Exploration

In 2006, the separate departments of Geological Sciences, Physics and Astronomy were merged into SESE.

Research is organized by transdisciplinary themes, not methodologies.

An SESE team is now leading its first moon mission (2018), building a NASA-quality mini satellite to search for hydrogen.

Craig Hardgrove, Postdoctoral Research Associate
& Principal Investigator, LunaH-Map

NewSpace Initiative

Integrating academic and commercial space enterprises using ASU's core strengths in space science, engineering, and education.

Innovation: Teaching / Learning

Center for Education Through eXploration

New Teaching Philosophy:

- Explore the unknown instead of mastery of the known
- Focus on transdisciplinary questions instead of disciplinary silos
- Design, develop, deploy and research interactive, exploration-based learning using digital platforms and teaching networks.

Innovation: Teaching / Learning

Global Freshman Academy

Earn freshman credit after completing digital immersion courses hosted by edX and designed and taught by ASU.

More than 40,000 students from 163 countries participated in GFA since August 2015.

Global Freshman Academy

edX

Founded in 2012 by Harvard and MIT.

Mission: Increase access, teaching and learning innovation and the advancement of education through research.

ASU is an edX charter member, along with MIT, Harvard, Berkeley, Caltech and others.

Anant Agarwal, CEO, edX, & Professor, Electrical Engineering and Computer Science, MIT

Innovation: Sharing Resources and Best Practices Globally to Benefit Arizona

Higher Engineering Education Alliance Program (HEEAP)

Sharing Resources and Best Practices

A unique consortium of public research universities established to help more students from all socioeconomic backgrounds graduate from college.

Sharing Resources and Best Practices

Our Future

The Future of ASU

The type of innovation that will revolutionize the future of education is not a tool, technique or device.

Real, meaningful disruptive innovation will come from **collaboration**.

We need your **ideas, engagement and advocacy** to help our students and Arizona to succeed.

For your ideas to

grow

For your ideas to

grow
